THE MERCHANT SERVICE.

Long Hours of Watch.

The following information which is an extract from an Officer's log book, has been forwarded to the Imperial Merchant Service Guild with the request that publicity be given to same in order to show the number of hours on duty performed by the officers of a 5,000 ton stgamer. The vessel in question only carries two officers, and this explains in a great measure the inadequate amount of rest obtained by each officer, which is scarcely sufficient to render him physically fit to perform his duties and give the necessary attention to the safe navigation of the vessel and, incidentally, to the safe' ty of life on board, as the following extract demonstrates :--

Chief Officer. Hours on duty-Saturday, December 2nd, left Venice 6 a.m. for Sulins, on duty 18 hours; Sunday, 3rd December, at sea, on duty 12 hours ; 4th at sen, on duty 20 hours ; 5th, at sen, on duty 18 hours; 6th 20 hours; 7th 18 hours. 8th 20 hours; 9th 18 hours; Total hours

on duty 144. Second Officer. Hours on daty-Dec. 2nd 18 hours; 3rd 12 hours; 4th 18 hours; 5th 20 hours ; 6th 18 hours ; 7th 20 hours ; 8th 18 hours; 9th 20th hours; Total num-

her of hours on duty 144. Hours off duty December 2nd 6 hours ; 3rd 12 hours; 4th 6 hours; 5th 4 hours Oth & bours ; 7th 4 hours ; 8th 6 hours ; 9th A hours ; Total number of hours off duty

Sunday, December 10th, at Salma, worked all day, Boomd Officer from 4 a.m. until 7 p.m., Chief Officer from 8 a.m. to 7 p.m. shifting slip and preparing to take in

Carpo.
The Guild line preed upon shipowners that, in order to enable Officers to obtain the necessary rest required to efficiently perform their duties, each vessel shall a

least carry three certificated Officers.

THE SOUTH POLE.

Story of Capt. Amundsen's Feat.

CAPT AMUNDSEN INTERVIEWED.

(Concluded.)

The same newspaper publishes interesting account of a visit of Pressme to the steemship Fram at Hobert, when Capt. Amundson was interviewed :--A party, consisting of Captain Amund-

sen, Captain Neilsen, who is in command of the Fram, press representatives and photograpers, went down by motor launch to the Fram, which is lying off Battery Point and the visitors were made most welcome on board. The central objects of interest on board, of course, were th men, and the dogs which went to the South Pole, and the records of their feat. But there was much else to be seen on board the vessel, and time proved all too short for the purpose.

THE BRAVE POUR.

The four men who accompanied Captain Amundsen to the Pole are thickly strongly built Norwegians, with a bronzed and healthy appearance. Their names ar Bjasland, Hansen, Hassel, and Wisting. Bisaland has won many prizes in Norway by his skill in the use of the skis, or Norwegian snow shoes. On such shoes was in the neighbourhood round the Bay of the trip to the Pole made. He has also to his credit leaps of well over a hundred feet | the country explored to the eastward. in length. "Hansen, who accompanied Captain Amundsen on his voyage through the North-west Passage, is described by his leader as the best dog driver he has ever seen. Wisting is an ex-petty officer in the Norwegian navy, and Hassel was formerly a Customs-house official in Nor-

"Better comrades than I had," said Captain Amundsen, "one could not wish to have. To them, and to the dogs, and to the skis, our success was really due."

The opinion of his followers appeared to be, however, that it was to Captai Amundsen himself, to his energy, unbound ed capacity for work, and, above all, to organising capacity, that the success of th journey must largely be credited.

WEATHER AT THE POLE. Heasel, speaking of his experiences, said: "The cold experienced on the journey to Bay of Whales, as the head of Boss Sea, the Pole was really not very formidable it runs straight southward over the vast Near the neighbourhood of the Pole itself ice plain lying behind the great ice barrier, the weather was fine most of the time, and following the parallel of 161deg, west I have known it colder in Christiania. is true we were furs to start with, but we leading up to the high land around the found them too warm for marching in, and Pole. On the outer edge of this elevated went in our ordinary clothes. There was not much difficulty generally in getting of mountains rising in places to heights of warm, once we got moving. We could nover have got through as far to the eastward, indicating the place where Dog flesh as food was not of the worst, while as to the dogs themselves. they seemed fond of each obher as food; Same were fonder of their companions when dead than they had been when they were alive. Captain Amundsen is alwonderful man, and to him our getting through without accident or mishap was due,"

THE RECOBDS. In answer to a question as to the permanence of the record left showing that they had reached the Pole, Captain Amundsen said: "I think the tent and dags ought to remain in position for a good

while to come, If there is not something very much worse in the way of weather than we experienced there should be no danger of the tent being plown away and it would be a long times a couple of year, tat least perore it would be buried in the 1. Think there must be some in stake

christened King Haskon Platena is the same as he named King Edward Plateau. I do not think, he said that. He may have meant it was all part of the same elevated area, but Sir Ernest Shackleton, when he resched his furthest south, was still going up, while we reached our greatest height, 10,750ft, in about the same latitude as that at which he had to turn back, and then began to descend again. The slightly sloping plateau on which the Pole stands. and which we called King Haakor Plateau,

-OTHER INVESTIGATIONS.

Six Ernest Shackleton."

is not the same as the plateau named by

Publicattention has been mainly focussed on the doings of the southern party led by Anundsen himself, which attained the Pole, but it may be remembered that another party was working from the base at Framheim. During last summer the eastern party devoted itself to the exploration of the neighbouring portion of King Edward Land: The party consisted of Licut. Presstrud, Captain Johannsen, and Mr F. Stubberend, with 14 dogs and two eledges. Captain Johannes has achieved fame in the Arctic Circle. He was the companion of Namen in his famous furthest north journey, when the long march from the Fram over the ice towards the North Pole was made. Lieut. Preestrud, who was in charge of the party, very kindly showed and explained his charts. The first showed the base camp and the country. Whales, and the other, not yet, completed,

Speaking of the Bay of Whales. Lieut. Presstrud said : "It is very well named; for at one time I have seen dozens of whales in the boy. There is a break in the ico barrier here; the ice presents an unbroken cliff-like face 150ft high or so. but here there is a fedge rising about 10ft. from the water and then it is flat."

BOUTE TRAVELLED.

Captain Amundson's chart, showing-his route to the Pole, was naturally one of the things which attracted most attention as a permanent record of the expedition's success in securing the coveted distinction of reaching the southern extremity of the earth. A thin red line a few inches long across the face of a sheet of paper represented the 800 miles over which the expedition made its way to the Pole. Starting from the base camp at Framheim, on the until it reaches the foot of the great ascent region, on this side at losst, runs a range above 15,000 feet. Here the red line bends

CURING DISEASE

BY PROPER TOOK

Livery thinking man must be impress d by the fact that the modern doctor is relying less and less on the administration of drugs for the cure of the ordinity illnesses of life, and more and more on the selection of proper food. As a matter of fact, this idea is not so new as it seems, for it has been advocated for impdredu of years or Thomas Sydenham, who was called the "English Hippocrates," and ived in the seventeenth century, wrote: There are not a few diseases which with be oured by the use of proper dist alone. "In treating disordered and diseased conditions by food, there are two facts to be observed. The first is the elimination of foods which are found to be injurious to

strength. Moreover, this foud, being of bland nature, must put no strain on the organs of excretion, whose mission is to keep the blood pure. Among such foods, milk takes a high. place. There are however, grave draw-

the individual, and the second is to supply

ease and assimilate without trouble, food which will nourish him so completely the

his weakoned ayob m will rapidly go

him with food which he ean digest wil

In the first place, it necessiates the taking of a quantity of fluid which, in itself, may greatly disturb the digestion. In the second place, it is by no means easy to get pure milk in hot countries. In the third place, in order to preserve the milk it is frequently mixed with chemicals, like bursele said. This is exceedingly liable to cause indigestion adults and certain to do so in children; while many people find it disagrees with

MANY DEVICES FOR CURE. Many methods have been devised for vercoming these difficultize, and! drive milks of various kinds have been recommended to be ased

It is constantly found, however, that the sufferers in warm climates need compthing more than milk products to sustain their health and strength. The resson is that their nervous system is constantly affected through the too rapid using up of the phosphorus salts which play so powerful a part in maintaining the health of the nervous

system. The pre-emineut need of such people, and, indeed, of most people who live in hot countries, is a food which combines nutritive qualities of pure milk with energising and nerve-building properties of phosphorus. These two elements, however, are almost quite uselers if merely mixed together, for the ordinary preparations of phosphorus soon disturb the digestion and make the sufferer's last state worse than his first. The phosphorus must be in what doctors call the "organic" form, and tit must be "chemically combined " with the milk in order to be easily digested and to produce its best

It is in this form that these elements exist in Sanatogen which, to quote an article published in The Medical Press and Oresign, "has strengthened the physician's hand a hundredfold," while, it adds, " the wonders brought about by it are no les manifold than amezing, and have been testified to by leading physicians whose names are as household words in many THE BEST METHOD.

countries of the world." Sanatogen, in fact, has come to be recognised by the best doctors everywhere as the greatest tonic food in the world, the one premaration on which complete reliance can be placed to build up the tissues which are Estroyed in many diseases, and thus restore the lost weight which results from them. In order to do this, Sanstogen must first restore the blood to its best possible condition; for every part of the body derives its nourishment from the blood, while, at the same time, it revitalises the nervous system. It is thus evident that Senatogen's power is not limited to one organ; but, by influencing the digestion the nerves and the blood, it exercises a wide control over various conditions, and esn ameliorate and cure a large number of

Testimony to this power is further borne by The Medical Press and Oircu'ar, which says : Saustogen is readily absorbed by the stomach and has an immediate and remarksable effect, shown by a steady increase of body weight and of muscular strength and energy. At the same time, the colour-is brought back to the patient's cheeks, which is due to a specific increase in the number of red corpuscies. Moreover, Sanatogen's feeding and susmining properties are in valuable in the complete loss of appetite that often spells danger in attacks of Influenza. To neurish the patient then becomes a matter of life or death, and under these circumstances the supreme importance of highly nutritive and absorb able food in small bulk is recognised. Sanatogen further supplies the much need ed nutrition to the besin cells as well as the mecessary fillip to heart, stomach, liver and other organs of the body."

.Write for a copy of a most interesting booklet. The Art of Living, by Dr. Andrew Wilson, which will be sent free to all mentioning this paper on application to A. Wulfing and Co., 6, Kuking Boad,

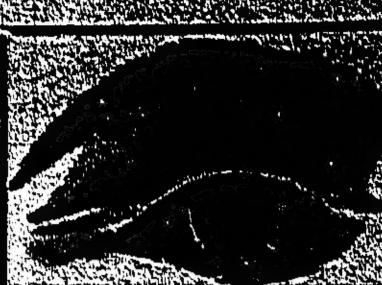

Sanatogen can be obtained of all chemists.

Intimations.

the party climbou for four days up Hilberg

glacior, which o ered them a fairly over

cote through the moon tune. An height

of little over 11,000 feet beyond the summit

lice the pleasantly-named Davil's Glacier, and beyond that the Davil's Dancing Room,

where the ice sounded hollow beneath the

fact of the party. Once beyond these

troublous regions the red line runs almost

due south again, straight for the Pole.

About 100 miles from the Pola the greatest

height reached on the journey, 10,750ft, is

shown, and beyond that there is a down-

ward slope. Finally a dot on the paper

shows the goal of the long voyage from the

ASCENDING THE MOUNTAINS

Captain Amundsen pointed out that the

place where he ascended the mountains way

about 150 miles to the castward of Board

more Glacier, up which Shackleton made

his way. He continued : " As you see, it

would have been a roundahout route for

me to have gone up Beardmore Glacier,

and I think the place where I went up

would have done We went up to an

elevation of over 10,0 0 feet in four days.

As to cravasees, there were a me, but the

were not dangerous ones. Beyond that we

had three days' rather had travelling, and

AT THE POLE.

"At the Pole itself," continue Captain

Amundsen, "we exercised the greatest

care in making our observations. We

stopped when we got to as mearly as we

could ascertain 89Jeg. 55min., or five miles

from the Pole, and took our reckoning

from there. Then we went on to the Pole

itself, where we individually took the most

careful observations we could in order to

make quite certain. Then four of us went

out to four points at about five miles from

the Pole as the centre, and took observa-

tions there, in addition to the observations

at the Pole itself. Well, we could not, of

course, determine it as exactly as a man

in an observatory, with all his instruments

used all possible cars, and I do not think

DOES ATHLETICISM KILL

GRACE?

It is constantly complained, says the

Morning Leader, that the athletic girl of

to-day is sacrificing much of her beauty-

especially the beauty of her figure-for the

sake of the pleasure and excitement of

deplored, her walk is ridiculed, her swinging

arms are looked upon with horror, and the

darice gracefully, that she might just as

well be a man, and that goodness knows

IS IT TRUE?

girl of to-day is a far more beautiful t', ing,

and far pearer the incomparable Greek

ideal-the ideal responsible for the Venus

of Milo and the other statues that make

modern sculptors despair - than the florpy,

plump, round, smooth, inactive girl of

Victorian days and earlier? Is it not a

fact, too, that the most beautiful women

to-day-beautiful, that is, in the severely

classical sense-are the women who play

games and lead an active life out of doors

THE GRACIPUL STRIDE.

the woman golfer is far more graceful than

the jerky, mineing, artificial, and pit-a-par

step of the fashionable society women wh

never plays strenuous games, or of the

early-Victorian woman whose most violent

exercise was knitting. Watch a present-day

girl driving a golf ball, or striding towards.

the green. Very often you will see the

perfection of Grecian grace. The spare

well-knit form, the unfettered walk and

swing, the natural carriage, the gene al

abandonment to the open air all make to

VENUS AS A GOLYKE.

there is little doubt that she would hav

would not have walked with the little ster

long, swinging strides of the athletic out of

doors girl. But if she walked in golf coat

and skirt down Regent Street to-day, He

feet would be writicised as too big, her long.

swinging stride would be condemned as too

masculine, her shoulders would be dismissed

One result of Victorian traditions is

eeen in the round should gred old women of

brday. One with well set shoulders in

seldom seen. But the old women of Co

years houce will be magnificent. They wil

have been golfers or lawn-tennis or hockey

players in their youth, and as white-haired

A Captain in Kitchener's Scouts

### Nervous Breakdown, Paralysis-

The master force which conquered the most perilous afflictions and enabled him to endure amazing hardships, says Captain Henderson, is derived entirely from Phosferine. Exposed by his adventurous life to an extraordinary series of misfortunes, from being disabled in action, to sunstroke, enteric fever, and paralysis of the legs, this gallant officer was yet able, entirely owing to the aid of Phosferine, to leave the hospital and fight, through to the end of the Boer War! Under blows which make men reel and fall, Captain Henderson was so upheld by the vitalising and bracing qualities of Phosferine, that actually on his return home he was robust and vigorous enough to win" four military prizes in one day, including the famous Victoria Cross Cup!

### Cured with Signal Success.

Captain D. E. Henderson, I, Marino Avenue, Cloutarf, Dublin, writes:-"During the late Boer War, I had a severe shock from lightning, and an injury to the spine through my horse being killed in action and rolling on top of me. In India, some years previously, I had an attack of sunstroke, and was five months in hospital with Enteric Fever. These troubles told upon me, and ultimately resulted in a complete nervous breakdown when in Pretoria. I was admitted to hospital when I had lost the use of my legs." I was treated for neuritis and sent out only partly cured, and then started taking Phosferine systematically and regularly. The benefit I received was marvellous; in two months time I was back in the field and fought right through until the end of the war. Owing to a great financial loss, which preyed on my mind, I had a second breakdown, and the doctor told me that I would probably be paralysed for life. I thought again of Phosferine, and after using it about three weeks my strength gradually returned and the frightful depression and weakness left me. The proof of which is that, in the military sports, I won four prizes ite one day, including the Victoria Cross cup."-July 14, 1911.

### LIFE WITHOUT HEALTH IS LIVING DEATH, FTAD TOBRAIN AND

This remerkable compound, the latest discovery of modern times, is without equal in all cases of defective nerve and brain power, whether induced by worry, overwork, dissipation, or other influences. Eleeplessness, palpitation, defective circulation, nervous dyspepsis/ tie or neuralgia, low spirits, mental and bodily prostration, want of confidence, general debility, premature decay or deficiency of the vital forces, loss of vitality, harsasing dreams, restlessness that can settle to nothing, irritability of temper, female complaints, hysteria, backache, bearing down sensations, wasting diseases, consumption, pight sweats, muddy, high-coloured water, &c., are all so many different phases of brain and nerve wreckage and exhaustion, the case of by far the greater portion of the misery, ill-health, and despondency by which we'are confronted on every hand, that can only be successfully combated by the use of this wonderful and highly scientific preparation. Bracing up the system generally, it gives tone to the exhausted, nerves, arrests all weakening wasting discharges, rectores the failing energies, and imparts new life and vigour to those who had so recently seemed played out, used up and valueless. Bottles-Price 2s 9d.

# WITHOUT PURE BLOOD HEALTH IS IMPOSSIBLE.

Never before was there anything like it, nor can its marvellous properties ever he equalicd in all cases of poorness; impurity, or other imperfection of the blood from wintever cause arising.

For somer is it included into the system than it permentes and penetrates to the minutest capilides, overcoming and expelling disease, wheresoever and in whatsoever form met with; removing dishlotties, pimples, scurf, scurvy, scrafulous and glandular swellings, discolorations, roughness and duslyhity patches, &c. In effects are almost magication the treatment of good, rheumalism, selected jumbage, pains and swellings of the joints, discharges, blood polson, ecseme, lepra, paorissa, bad legs, bad breasts, abscesses, pieces, wounds, sores, goitre or Derbyshire neck, it improves the general health, and quickly removes long-standing breachitis, asthma, and hacking, establing spasmodic cough, too often the precursor of consumption. Bottles Price is: 96.

Send stamped addressed envelope for free booklet, or P.O. 2/9 for trial bottle of either nemedy, to THE VETARZO REMEDIES CO. GOSPEL OAK LONDON. Unprincipled Vendors may try to sell you bomething size for entry profit—do not accept it, but insist his having WETARZO The genuine has the words "VETARZO REMEDIES" on Government Stemp. VETARZO REMEDIES ARE BOLD BY BOOTS. CASH CHEMISTS.

### -COMMERCIAL

MANCHESTER WEEKLY MARKET REPORTS James F. Hutton and Co. Ltd., Manchester, report under date March 14 :---Liverpool stock all kinds, bales 1,173,080. last year 1,280,000; Liverpool stock American, bales 1,068,720, last year (1,167,720); American cotton into sight, bales 13,627,000, last year (10,606,000); Receipts at American ports, bales 10,277,000, last year (7,763,000); Visible supply, all kinds, bales 5,910,600, last year (4,490,000); Visible supply, American, bales 4,681,000, last year (3,415,000); Visible supply, Egyptian, bales 372,000, last year (354,000); Visible supply, East Indian, bales 35,000, last year (506,000); Visible supply, Other kinds, bales bales 62,000, last year (64,000).

The movement of American cotton "into sight" for the week ending March 8th was 304,000 balos, last year for the same week it was 118,000 bales the movement "out. of sight" i.e. deliveries of American to the World's Spinners was for the same week 413,000 bales, and last year 287,000 bales.

The Board of Trade returns for February were issued on the 7th inst., and show a substantial increase in the expert of Yarns ever the previous February, while decrease is shown in Piece Goods of 394 million yards - the total Imports are £3,648,463 more and the Exports£1,837,209 more than same month last year.

The Lock out of the Weavers for 32 Swiss Federal Parcel Post. weeks in January last caused a shortage in production much greater than the shortage in last month's export, and will be felt again both in the export quantity for this month as well as next. The net import o gold (chiefly sovereigns) into India fo-February was £5,174,000 or practically one-sixth of the whole Rand output for 1911, and was more than double the import of 200 feet long. during the previous February-the greater portion was received into the currency reserve, and against it there was corresponding emission of rupees-this is an interesting point, contradicting the assert tions that India is being deprived of good currency, · ...

The excitement in the New York Cotton Market caused an advance at Liverpool last Saturday the 9th inst., to 6.06 for Spot, passing the previous highest point this year, and although a few points were lost on Monday, the 11th inst. New York Bulls continued active and advanced Cotton there on the swine day 20 points to 10.80-Liverpool further advanced to 6.11 on the 12th inst., add to 5.12 yesterdaythis in face of Strikes and the probability of an extensive stoppinge of machinery in this district, through the Coal Strike.

Outsides speculators have taken a part influenced by the strong markets all round, including Liverpool another feature of the situation is that so much of the big crop of American Cotton last grown is reported to be of very inferior quality, and cannot go into consumption here.

The Egyptian Crop is proving somewhat larger than was expected and is better grown than carlier in the Season appeared

Business in this market in Manufactures is much quieter than last month there are however improvements in Egypt, in some parts of Turkey, and a moderate enquiry goes on for India; Bombay, Karachi and also Calcutta and Langeon are making offers, and the markets up-country viz. :-Amritant and Delhi report improvement, while Campore, contributes offers for various kinds of goads-the Straits too appear to have got over the waiting attitude of the Autumnand continue making fair purchases, along with neighbouring ports and Java; further East Japan has been buying some general requirements, while with regard to Chins, there is not much news; the Auction Sales are suid to have begun well at Shanghai and purchases to a small extent are reported here, probably for the Auction Sales replacements; private Indentors do not yet give instructions for shipment infull of delayed cargoes lying here, which is a very awkward situation for the Merchants. If the Coal Minute Strike can be quickly brought to a close, we should have. a very strong market, and there would be little or no prospect in the near months of lower prices thin those at present rolling, in fact, there would be more probability of an advance.

A FAMILY NECESSITY. IVERY family ahould be provided with Chamberlain a Pain Bolm at all times, Sprains may be cured in much less time when promptly treated. Lame back, lame shoulder, pains in the side and cheet and theumstic pains are some of the diseases for which it is specially valuable. Try his liniment and become sequented with its qualities and you will never wish to be without it. For sale by all Chemists and

LUSITANO CLUB SPORTS.

Brilliant Assembly at Happy Valley.

Being holiday time and the occasion of second. Time, 13.4-bees. the annual Lusitano Club Sports Monday afternoon at Happy Valley was indeed an interesting and picturesque sight. There Boys' Race, 220 yards (handicap), for was no lack of interest in these annual sports, and spectators-especially those belonging to the Portuguese communityturned up in strong force, being quite as enthusiastic over the novel kind of contests as those of a more "serious" description. Note Bahra, Rejentan. There were events for all, and it seemed Rusia Lumpur, F.M.S. that simost all who could took part in them, from children under seven years of age to men weighing over 170 lbs. - The latter were required to run a distance of 120 yards. The winner was a somewhat corpulent gentleman who must have receivedenquired the time in which this event was run and was informed by an official that Every description of Banking and Ex-

no such record was kept. Perhaps this was quite as well. Amongst other humorous competitions was the Ladies Brown. Time, 8 mins. 12 2-5secs. Nomination race the preparations for which occupied an unnecessarily long time. To add to this discomfort the competitors, after enatching with their teeth a ticket from one member of charming line of the gentler sex, had to swallow a bath bun after having made a sprint-a task by no means easy, especially with their hands secured behind their backs. However, each of the 22 events H. Silva; 2 A. E. Silva. was entered into in capital sporting spirit There was only one championship, the 220

occasioned most interest. a programme of well chosen selections P. Roza. during the afternoon.

There was a long list of officials, com- 2, P. A. Yvanovich. prising about fifty. Mr C. M. S. Alves admirably carried out the operous work of hon, secretary, while congratulations should be accorded to the Committee for the sements. The function was attended periods, at rates which may be ascertained by Consul-General and Mrs. Leiria, and Consul-General Patricio, of Canton.

HONGKONG, TUENDAY, APRIL 91 1912.

WOMAN'S SUFFRAGE IN CHINA.

ton three ladies were elected to take sents in the National Assembly in Nauking. These pioneers are named In Pul-LAN, Lun Iu-wa, and knowledge and ability to assist in Wong Chiu-Tseung. They were public affairs; but now, seeing that chosen by a meeting comprising a large the people have thrown off the number of women but from whence yoke of the oppressor, and have election we can not gather. There is taking part in the governing and still much discussion on foot as to the management of the State, so the time men to have seats in the National to throw off the yoke and show that Assembly of China, and in Nanking Pretty Voiles, the members of the Assembly are said not to have reached any final or satisfactory conclusion. Meanwhile the Canton ladies are apparently determined to demand their seats as the duly elected representatives of the women of Canton.

A section of the native press of this part of China supports the women's contention and indeed appears to be rather jubilant than otherwise that China should be so far udvanced as to elect women to take seats in the National Assembly and a further source of gratification is cam. Howell, 20. found in the idea that amongst the Eighteen Provinces of China, Kwangtung is the most daring and determined and leads the van in this innovation. In a recent issue of a prominent Chinese daily paper the doings of women in other countries were referred to, and especial emphasis was laid on the recent developments of the "Women's Question" in England. The determined opposition to woman's suffrage in Great Britain seems to the writer to be based upon wrong assumptions, and he argues that the Chinese should be glad that they have risen above such winest of H. M. Naval Yard, arrived ber

the article proceeds somewhat as

"That there are now women ready Mr Esmoud's "One Summer's Day. to take part in the work of Government is a sign of the times. They must not be a mere name with no reality attached thereto. Parliament is the central machinery for the making of the laws of the country. Ladies elected to sit in Parliament are the elected representatives of the women of the empire. They must, therefore, learn the principles and the last. art of Government, and then they will have the power to decide questions intelligently. They will then be able to take upon their shoulders the burden of government and bear it. Then will women be able to enjoy a happiness that is without boundaries. I however, they merely exert them-

selves by fits and starts and do not express their thoughts and their ideas, what will be the use of these sileu representatives sitting side by side? These contentions about women taking their places in Parliament are not a thing of to-day merely; that they hitlierto have not been able to succeed in their efforts is surely not without some rational explanation. Firstly the general knowledge of women is not equal to that of men; they do not ride side by side in the same carriage nondo they gallop abreast on horseback. Secondly, the nature and gifts of women are not exactly the same kind as those possessed by men. They are more easily excited, and in discussion if they are opposed and contradicted they will yield to and follow the loudest voice for the sake of peace-These qualities and characteristics are opposed to frank discussion. These are perhaps the most powerful reasons assigned why up to the present women have not been elected to sit in Parliament. But the more they are opposed

the more determined they will be."

There is much more along the same line of reasoning; and it is evident that the writer is an out-an-out supporter of the principle of the right of women to be elected to the National Assembly in order to represent those rights and the disabilities of women which are only perfectly comprehended by members of their own sex. I writer, however, is that just as in the France to receive such an appoinment. past unlimited monarchy in China became oppressive to the people, the rulers regarding them as too ignorant of the affairs of the empire, so in the North. past in all countries men have kept ticular regard, saying and thinking that they had not the requisite they too are able to take part in the government of the country, and especially in the interests of their sisters, who up to the present have been completely ignored.

The situation is not without in terest. It is certainly true that there has been a remarkable awakening of the feminine mind in the south of China, and the way in which many girls of good families have come forward and enlisted in the army shows a depth of feeling quite unexpected. What will be the issue of the present agitation cannot yet be foretold, but section of the Chinese press evidently in favour of the women's

### INTERESTING HONGKONG WEDDING

Miss Edwards Mr Bowley.

A wedding which aroused considerable interest in the social life of the Colony took place at St. John's Cathedral this afternoon when Miss Ethel Bronwen Edwards, second daughter of the late Mr Richard Edward, matrimony to Mr Francis Bulmer Lyon Bowley, third son of the late Ray, J. W. L. Bowley of Bristol and Mrs Bowley Reading. The bridegroom is extremely well-known in the Colony as a momber of the legal firm of Mesure Dennys and Bowley and as a thoroughly public-spirited resident; and house it was only natural that the event should draw together a crowded congregation of leading people of the Colony,

The ceremony took place at S o'clock. and the wedding was an exceedingly pretty one. The Rev. F. T. Johnson was the officiating dergyman and he was assisted by the Rev. A.A. C. Moreton, R.N. At the organ was Mr Denman Fuller. spropriate to the occasion.

The bride, who was given away by Mr H. Dennys, saur., was charmingly at tired. She were a magnificent gown o white charmonse sating trimmed with pearly embroidery, as well as a train of eatin and pearl embroidery with bows of ribbon fastening from the left shoulder to the waist. The whole was made by Madame Mariette, of London, while the old lace veil worn by the bride was lent by the latter's mother. The bride's bouquet comprised a sheaf of beautiful arum lilies. Four bridesmaids were in attendance on the bride-Misses Vivienna Dennys, Esme to press. Scott Harston, Betty Harvey and Shells Mac Moun. Attired in white satin dresses trimmed with silver, and carrying crooks adorned with pink roses and violets tied with pink and mauve ribbons, they presouted a sweetly charming picture. Mr C. Bulmer Johnson, cousin of the

bridegroom, was "best man. At the conclusion of the ceremony, argely-attended reception was held Belvedere, the Peak, when the usual toests | morning fined \$25.

The bride's going-away dress was of white muslin trimmed with lace, with pink brocade sash. She wore a pink hat adorned with vari-coloured flowers; this, together with her trousseau, was by Madame Mariette, of London.

There were numerous beautiful presents. morrow's China Mail. The bride's gift to the bridegroom was a watchchain and pencil case, while the bride room gave the bride a dismond brooch and the bridesmaids pearl brooches.

### EXECUTIONS AT CANTON.

(From Our Own Correspondent.)

On Friday a number of pirates were captured on board a launch near Kong Moon and brought to the city for trial. They were a unit of a large company of pirates who have been the subject of injury and investigation lately and were shotons vacant space of ground near Tai Sha Tau. On thirty dead bodies were to be seen scattered ever the field and a number of the bodies funtil the 11th, inst. had been mutilated. The method of shooting is to make the prisoners kneel down and then to shoot at them till they drop. which means often that they are still slive. One of the men who was shot a about 4.30 on Thursday night was still alive at 9 a.m. on Friday morning. On Friday three more pirates were captured and shot on the same spot.

SILVER TAKEN OUT OF THE CITY. quantity of the new silver 20 cents pieces being minted are being taken out of the city has issued a notice to the effect that no one will be allowed to take more than 850 worth of silver out of the city.

permission to buy arms and ammunition much trouble in this vicinity that he has decided that until the magistrate (Governor) in charge can guarantee the peace of the district no such concesion can be made.

PICHTING AT CHAN CHURN. At Chan Chuen there has been serious fighting between two chiefs entailing a loss of about 100 lives. The result is that merchants have closed up gathered up the Tung Wah Hospital where she was their goods and fled and the place is now in a very bad state.

now for a long time and the reason is the the recent trouble has given the pirates and robbers on the Delta a fine chance of managing their business, with the result that very few junks get down to the city at all. These last fow days the price of rice has gone, up considerably and there is bound to be trouble over the unless the river is petrolled sufficiently to allow of sufficient rice being brought in. It is stared to-day that more than 200 junk loads of rice are on their way nown to Canton if they be guaranteed protection and this is almost certain to be done so that the price of this necessary commodity will drop to normal som

There is still trouble about bank unter

At a meeting of the Sanitary Board this Throngs Royal on Market Mindle was afternoon consideration was given minute by the Director of Public W (accompanied by a covering letter from the Colonial Secretary) relative to the Report on the bacteriological examination of bise J. P., and of Mrs Edwards, of Fedw Hir, public water supplies for the first quarter Aberdare, was joined in the bonds of holy of 1912. The minute stated that it was Agreed at a meeting between the contractor of Public Works, the Principal Civil Medical Officer and the Bacteriologist and Analyst that the samples for examination should be obtained from the points stated, namely, unfiltered sample, directly out of the filter bods, filtered sample from the main immediately after filtration.

Mr F. B. L. Bowley minuted : The letter from the Colonial Secretary is no reply to the question propounded which was "Where were the samples in attached report referred to actually taken ?" Refer back for a categorical reply !

Dr. Fitzwilliams minuted : "Unestiefactory" " Extra." Were the sar taken from these points.

minuted : The following should have preceded the statement made in my minute of 12/3/19 to the Hon. Colonial Secretary. unfilbered samples were taken from filter bods, and the filtered samplestaken from a point in the main leading from the filter bods to the service reservoir mmediately -adjoining the filter beds." The minute should stop at the words stated. The Board was still sitting as we went

> The police received information on Sunday that two days, previously a stone junk was seen in suspicious circumstances lying st Tai Kok Taut, having on board a 300 b. anchor and 270 feet of 3-inch anchor cable. value \$300. Of these the master of the junk failed to give a satisfactory secount. Accordingly the junk was seized by the Water Police and the crew were arrested pending enquiries. An examination of the chain revealed a certain mark on each link while a similar mark on the smelic Mentified them as belonging to the forw from loon Godown Company. This morning the Long rather to master of the junk and three of the oraw

### EXAMINATION OF WATER STREET, THE SOUTH OF THE SOUTH BUPPLIES

when the Divinian Course Company the sale The Country Lorenboom H. E. Mr. Clause, Severa was there with a party from Government Liouse and the presence of many military and naval officers to uniform lone much animation to the come will be musical comedy presented presented brooks bright and attractive music, while the story is full of dramatic p middition. To tall is briefly. The Count of Laxembourg hee run through all his money and whom discovered in the atelier of one Brissard is in a state of hopeless impocuniosity. To him, during a merry laterlude of Mardi Gras, come three mysterious strangers who offer him twenty thousand pounds if he will marry a lady under certain conditions. The conditions are poollier. He is neither to see his bride or to ask questions concerning her the is to leave Paris, immediately after the coremony, and three months later is to seres to be divorced from her on the ground of of his desertions. The lady in Angele Didler, F. R. C. O., who played music, ap- water reported upon in this correspondence a celebrated operationinger, who owes here education and success to the Grand Duke The Hon. Contractor of Public Works Rutsinov. The Grand Duke is medly in love with Appele and desires to marry herbut he can only mirry a titled lady, and she will gain this distinction by the proposed marriage scheme. The count falls in with the proposal. A screen is run scroes. the steller; he stands on one side, angele on the other, and a civil contract of marriage is arranged, neither party having seen the other. Of course in the impossible world of musical comedy the scheme is bound to result otherwise than its promoters intended, and in working up to this consummation much good acting

and some capital singing was indulged in. Miss Marjoris Tempest was a very delightful An ele, Mr Farmer a splendid Count, but the handling of the character of the amorous Grand Duke by Mr Roberts was the best thing of the evening. He played it with a delicate friest entirely different to saything he has hitherto given us here, and the applicase that he won was well deserved. Mr. Frith as Brissard was immense. He was gloriously fumpy all through and his recalled were frequent. Miss Frampton as Julietto. played up to him very well especially in the second act where the Count and Brissard turn up as uninvited guests at a reception given by the Grand Duke. Bere the two "fooled around" to the top of their bent and laughter rang unchecked throughout the house.

The stage setting of the Grand Duke's reception hall was very fine, the wide staircase, on which was danced the famous "stair-case walts" by the Count and Angels (a rather overrated and, by no means graceful performance, we think) spreading on either hand, with a wide terrace bathed in moonlight showing beyoud. This is one of the best 'ests' the Bandmanus have but on

To night the play will be repeated.

### UNION INSURANCE SOCIETY OF CANTON, LTD.

The report for presentation to the sharewhom the captain found in the fore peak holders at the thirty ninth ordinary meetwater tank whilst going down the coast of ing to be held on Tuesday, the 23rd April. Queenaland, They were dealt with at the says: The Board has now to law before Magistracy. The Steamship Company did the shareholders a balance sheet containing not press for a conviction as the men had a summary of the property and liabilities of the Society on the 31st December, 1911 and a statement of accounts to the same

> 1910 Account .- After payment of the interim dividend of 830 per share and the bonus of 20 per cent. to contributors passed at the last annual meeting, there remains & balance of \$874.294.25 as per annexed

The Board recommends that this sum be appropriated as follows :-

A final dividend to shareholders. of \$20 per share on 12,400 An addition to the sterling reserve fund of £10.000 @ sr change I/10 ... To be carried forward to under-

writing suspense account to close the account for the year 518.731.22

1911 Account .- The helance of working account on the 31st December, 1911, was 12,844,556.27. The Board recommends that an interim dividend of \$30 per share peid to sperstolders sbegtteng 2372 000:00 and that a boom of 207 be raid to contributors, absorbing about \$250,000.00, and that the remainder be carried forward,

[COPYRIGHT,] COAL STRIKE ENDED.

STILL SOME DISSATISFACTION

(Reuter's Service to the China Mail) LONDON, April 8.

The ending of the coal miners' strike has been received with intense relief by all classes throughout the country, including even the miners themselves many districts, where they overwhelmingly voted for its continuance.

Here and there dissatisfaction is expresed. It is most intense in Yorkshire and Fifeshire, where meetings of the played the National Anthem and Corpl. Bullock 220 Sergt. Holliday 250. men have again decided not to resume | rockets were fired. until the minimum rates of wages are fixed. The meetings clamoured for the peated. resignation of the leaders.

Morsover, the claims of the ouginemen in Dürham threaten a deadlock. similar to that in South Wales, where the owners offer arbitration, but the engine men insist on compliance before they resume.

The miners' leaders are confident that the men will obey instructions to resume, but the necessity for repairing in the mines is likely to delay the getting of .coal for some days.

### OBSTINATE SOUTH WALES.

The engine-men in South Wales, who are striking separately, have decided to continue the struggle until the minimum wage is granted. Hence the resumption of work by the miners there is indefinitely delayed,\_ '

### THE MINERS CONFERENCE.

The proceedings at the Miners' Conference yesterday were fairly harmonious, -though the majority contended strongly that the men had been "let down."

### RIOTING.

The removal of coal from the Pendlebury Colliery, near Manchester, on Saturday led to a serious riot. The Colliery offices were wrecked and the police were stoned. The police made southern Yemen coast to the northward, baton charges and many were injured so as to include Lohein. on both sides.

### THE SCOTTISH SITUATION.

Except in Fifeshire, the Scotch miners have mode a general start.

THE FRENCH MOTOR SENSATION.

THIRTEEN ARRESTS.

(Reuter's Service to the China Mail.) LONDON, April 8.

Up to the present thirteen arrests have been made in connection with the motor . outrage at Chantilly, includ-.ing one of the alleged ringleaders named Callewin, nicknamed "Science," who was carrying three automatic pistoly...

The band is supposed to number sixteen, besides a dozen confederates. The police believe they possess in-

formation which will enable them to seize the whole gang. The arrests already made were most cleverly effected, giving the men no chance of resistance.

### GREAT HAVOC:

Reuter's Service to the China Mail.)

LONDON, April 8. The floods in the lower and middle regions of the Mississippi are making havocol the low-lying country.

Ten thousand people are homeless and It is expected that 40,000 will be ultimately destitute

### Cricket.

KOWLOON v. H.M.S. MINOTAUR. Kowloon Cricket Club ontertained ceam from the flagship of the China Squadron on Easter Monday, playing a two-innings match. The members were "at home" to friends, a goodly number of whom watched the play, and the band of H.M.S. Minotaur discoursed a number of very pleasing selections. The wicket was rather soft and the visiting batamen were far more at ease than their opponents, who found the bowling of Ward and Annaheim none too easy to master. On the first venture the naval men led by 42 runs and knocking up 113 for the loss of five wickets. in their second attempt they put the Kowloon, batamen in again. The decision was justified, for the team was disposed of for 77, which left the visitors with a margin of 78 runs on the aggregate. Scores :-

landed at once it Consigness risk and of the 11th lost, will be issued at Oco. 

Began in Red Places, Spread Rapidly. Brokeand Made Raw Sores. Speedlly Cured by Cuticura Soap and

thirteen years old. After using a sample tin. of Cuticura Cintment for him, by gently apply-ing every night and morning and bathing in wanth water, I found the scabby sores began to dry up and fall away, and before I had finished the sample he was completely cured... Then I found my other two children. Arthur, twolve yours old, and Sybil, nine, had tried several obstructs but they enly seemed more obstinate I got a tablet of Cuticura Bosp. feetly clear and smooth, and they have had no winers of the complaint since. "Just after that, Bybil fell and broke the grityesiones. I think she would have had a very bad knee but I persevered with Cuticum. Sospend Cutieurs Ointment which drew all the discharge and dirt out. I have recommended Cutieurs Soap and Ointment to several of my friends and shall always keep them by me, for they completely cured my three children of eczems." (Signed) Mrs. R. Edwards, 2. Woodview Cottage, Heywood, West-Glenstrae, Miyasaki Maru, Yangtze, March 22, Oalchas, Pathan. March 26, Benledi, Kawachi Maru, Pekiny, Priam, Scandia Sithonia.
